1. When designing a data backup and recovery plan, what's the first thing to figure out?

1 / 1 point

- ☐ Encryption and bandwidth requirements
- ☒ What data you need to backup
- ☐ How much total data you currently have
- ☐ Future growth in data storage needs

✔ Correct

2. A data backup strategy needs to prioritize important data and only back up what is necessary for operations. Assuming storage limitations, which of these is LEAST important to back up?

1 / 1 point

- ☒ User downloads
- ☐ Financial spreadsheets
- ☐ Databases
- ☐ Emails

✔ Correct

3. What is the standard medium for long-term archival backup data storage?

1 / 1 point

- ☐ USB drives
- ☐ Floppy disks
- ☐ Optical disks
- ☒ Magnetic tapes

✔ Correct

4. What are good reasons to do yearly disaster recovery testing? Select all that apply.

1 / 1 point

- ☐ To create downtime
- ☒ To ensure multiple people have appropriate rights and training to restore operations
- ☒ To identify additional vulnerabilities
- ☒ To be prepared for all possible snags or problems

✔ Correct

✔ Correct

✔ Correct

5. Which type of backup only saves the parts of data that have changed within files since the last backup took place?

0 / 1 point

- ☐ RAID array
- ☐ Complete backup
- ☐ Incremental backup
- ☒ Differential backups

✘ Incorrect

Please refer to the video about [types of backups](#) for a refresher.

6. Which of the following are popular cloud storage platforms? Select all that apply.

1 / 1 point

- ☒ Google Drive
- ☒ Apple iCloud
- ☒ Dropbox
- ☐ Rsync

✔ Correct

✔ Correct

✔ Correct

7. Some steps of the disaster recovery plan might be time sensitive to ensure there is no data loss or equipment damage. Which element of the disaster recovery plan is designed to address this time sensitivity?

0 / 1 point

- ☐ Detection measures
- ☐ Preventative measures
- ☐ Database measures

☐ Disciplinary measures

☒ Corrective or recovery measures

✘ **Incorrect**

Please review the video about [disaster recovery plans](#) for a refresher.

8. You are performing a network risk assessment to develop your disaster recovery plan. Which of these are examples of preventative measures? Select all that apply.

1 / 1 point

☒ Operational documentation

✔ **Correct**

☒ Redundancy solutions

✔ **Correct**

☒ Regular, automated backups

✔ **Correct**

☐ Alert system for outages

9. What are some benefits of a post-mortem? Select all that apply.

1 / 1 point

☐ To punish mistakes

☒ To understand the cause of mistakes and how to prevent them

✔ **Correct**

☒ To foster a culture where it's OK to make mistakes

✔ **Correct**

☒ To learn from and adapt processes for higher efficiency

✔ **Correct**

10. Which of the following are part of the five primary elements that make up a post-mortem report? Select all that apply.

0.75 / 1 point

☐ An accounting of financial costs associated with preventative systems

☒ Backup procedures

✘ **This should not be selected**

Please review the video about [writing a post-mortem](#) for a refresher.

☒ A description of root causes

✔ **Correct**

☒ A list of specific actions that should be taken to avoid the same scenario from happening again

✔ **Correct**
